TARIFF NO. 100 NRA Governing Rules Tariff NAMING RULES AND REGULATIONS ON CARGO MOVING IN CONTAINERS AND BREAKBULK BETWEEN U.S. PORTS AND POINTS (AS SPECIFIED IN RULE 1) AND WORLD PORTS AND POINTS (AS SPECIFIED IN RULE 1-A)

JET-SPEED LOGISTICS (USA) LLC - D/B/A - JET-SPEED OCEAN LINE is a Non-Vessel Operating Common Carrier (NVOCC) licensed by the Federal Maritime Commission (FMC) operating under FMC number 017846N.

NOTICE TO TARIFF USERS

Carrier has opted to be exempt from tariff publication requirements pursuant to 46 C.F.R. §520 and 532. In that respect Carrier has opted for exclusive use of Negotiated Rate Arrangements ("NRAs").

NVOCC NRA means the written and binding arrangement between an NRA shipper and eligible NVOCC to provide specific transportation service for a stated cargo quantity, from origin to destination on and after receipt of the cargo by the Carrier or its agent (originating carrier in the case of through Transportation).

Carrier shall issue quotation sheets, booking confirmations, e-mail communications and other writings (collectively "the writings") which will constitute an offer by Carrier to Shipper for transportation services pursuant to 46 C.F.R. §520.13 and §532. The terms contained in the writings shall be a valid offer for thirty (30) days from the booking date, unless otherwise rescinded by the Carrier prior to receiving Shipper's cargo. Carrier's or Carrier's agent's receipt of cargo for this shipment constitutes acceptance by Shipper of this offer, and the terms of the NRA shall bind the parties.

All origin and destination local charges apply whether or not included in this Rules Tariff or in quotations.

Rates may not be modified in an NRA after the time the shipment is received by the Carrier or its agent (including originating carriers in the case of through transportation).

Amendment No.: O	
Rule 2:	Application of NRAs and Charges

Effective: 01DEC2011 Thru: NONE Expires: NONE Publish: 01DEC2011

1. NRAs are stated in terms of U.S. Currency and apply per 1 Cubic Meter (M) or 1,000 Kilos (W), as indicated, whichever basis yields the greater revenue, except as otherwise specified. Where the word "Weight" or the letter "W" appears next to an article or commodity, weight rates are applicable without regard to measurement. Where the word "Measurement" or the letter "M" appears next to an article or commodity, measurement rates are applicable without regard to weight.

NRAs and other charges shall be based on the actual gross weight and/or overall measurement of each piece or package, except as otherwise provided.

NRAs indicated by W/M or WM are optional weight or measurement rates and the rate yielding the greater revenue will be charged.

2. Except as otherwise provided, all "Port" (i.e., Port-to-Port) rules published herein apply from/to places where the common carrier originates or terminates its actual ocean carriage of cargo. Tolls, Wharfage, Cost of Landing, and all other expenses beyond the port terminal area are for account of Owner, Shipper or Consignee of the cargo and all such expenses levied in the first instance against the Carrier will be billed in an equal amount to the Owner, Shipper, or Consignee of the Cargo.

NRAs are applicable from Inland Points which lie beyond port terminal areas. Such NRAs will be shown as single-factor through NRAs.

Such NRAs shall be inclusive of all charges pertinent to the transportation of cargo (including intermediate but not Origin or Destination Terminal Charges) and not including Customs clearance assessments or Forwarding Charges, except as provided.

Alternatively, at shipper's request, carrier will arrange for inland transportation as shipper's agent. All associated costs will be for the account of the cargo. Overland carriers will be utilized on an availability of service basis and not restricted to any preferred Carriers, except as Ocean Carrier deems necessary to guarantee safe and efficient movement of said cargo. (See item 16, re: Advanced Charges.)

Carrier shall not be obligated to transport the goods in any particular type of container or by any particular Vessel, Train, Motor, Barge or Air Carrier, or in time for any particular market or otherwise than with reasonable dispatch. Selection of Water Carriers, Railways, Motor, Barge or Air Carrier used for all or any portion of the transportation of the goods shall be within the sole discretion of the Ocean Carrier.

3. Packages containing articles of more than one description shall be rated on the basis of the NRA provided for the highest rated articles contained therein.

4. NRAs do not include Marine Insurance or Consular fees.

5. Description of commodities shall be uniform on all copies of the Bill of Lading and MUST be in conformity with the validated United States Export Declaration covering the shipment. Carrier must verify the Bill of Lading description with the validated United States Export Declaration. Shipper amendments in the description of the goods will only be accepted if validated by United States Customs.

Trade names are not acceptable commodity descriptions and shippers are required to declare their commodity by its generally accepted generic or common name.

6. Unless otherwise specified, when the NRAs are based on the value of the commodity, such commodity value will be the F.O.B. or F.A.S. value at the port of loading as indicated on the Commercial Invoice, the Custom Entry, the Import/Export Declaration or the Shipper's Certificate of Origin. The F.O.B. value and the F.A.S. value include all expenses up to delivery at the Loading Port.

7. The NRA shown except where predicated on specifically lower values or on an ad valorem basis, are subject to Bill of Lading limit of value.

8. Except as otherwise provided, NRAs apply only to the specific commodity named and cannot be applied to analogous articles.

9. Wherever NRAs are provided for articles named, the same NRA will also be applicable on parts of such articles where so described in the ocean bill of lading, except where specific NRA are provided for such parts.

10. FORCE MAJEURE CLAUSE: "Without prejudice to any rights or privileges of the Carrier's under covering Bills of Lading, dock receipts, or booking contracts or under applicable provisions of law, in the event of war, hostilities, warlike operations, embargoes, blockades, port congestion, strikes or labor disturbances, regulations of any governmental authority pertaining thereto or any other official interferences with commercial intercourse arising from the above conditions and affecting the Carrier's operations, the Carrier reserves the right to cancel any outstanding booking or contract in conformity with Federal Maritime Commission Regulations."

11. When a commodity can properly be carried under more than one tariff item, but which by its nature is clearly influenced by its end use, the freight shall be assessed based on the NRA of the end use commodity, eg: Rubber Gloves, Cotton Gloves, etc. would all be rated under "Gloves, N.O.S." rather than Rubber Goods, Textiles, etc.

The above does not apply in cases where there is a specific NRA for the commodity in question.

12. When two or more NRAs may be applicable to a given shipment and one NRA is more specific than the others, the most specific NRA shall apply. One NRA is more specific than another when it describes the commodity being shipped more explicitly, i.e.: Canned Pineapple is more specific than Canned Fruit or Canned Goods, N.O.S.

An NRA from/to a specific destination is more specific than an NRA to/from a geographic range or zone, (Examples): An NRA from New York, NY is more specific than an NRA from Atlantic and Gulf Base Ports (AGBP). An NRA to Yokohama, Japan is more specific than an NRA to Japan Base Ports (JBP).

13. Any Tollage, Wharfage, Handling and/or other charges assessed against the cargo at Ports of Loading/Discharge will be for the account of the cargo. Any Tollage, Wharfage, Handling and/or Charges at Port of Loading in connection with storage, handling and receipt of cargo before loading on the vessel shall be for the account of the cargo.

Any Additional Charges which may be imposed upon the cargo by Governmental Authorities will be for the account of the cargo.

 Diversion By Carrier

Effective: 01DEC2011 Thru: NONE Expires: NONE Publish: 01DEC2011

Measurement And Weight

Effective: 01DEC2011 Thru: NONE Expires: NONE Publish: 01DEC2011

Tariff reference to "W" and "M" signify 1,000 kilos and 1 cubic meter respectively. Whenever freight charges are assessed on a W/M "weight or measurement" basis or where rates are provided on both a "W" and "M" basis, the freight charges will be computed on the gross weight or the overall measurement of the pieces or packages, whichever computation produces the greater revenue to the Carrier.

1. All packages will be measured in CENTIMETRES and weight in KILOGRAMMES.

2. Rounding off- Dimensions

Where parts of centimeter occur in dimensions, such parts below 0.5 cm. are to be ignored, and those of 0.5 cm. And over are to be rounded off to the centimeter above.

3. Calculating Cubic Measurements

The three dimensions in centimeters (rounded off in accordance with (2)) are to be multiplied together to produce the cube of one package or piece in cubic meters to six decimals.

In case of a single package the decimals are to be rounded off at the second decimal, i.e., if the third decimal is below 5 the second decimal remains unaltered; if the third decimal is 5 or higher the second decimal is to be adjusted upwards.

In the case of multiple packages of like dimensions the cube on one package to six decimals is to be multiplied by the number of packages and the total cube is then to be rounded off to two decimals under the foregoing procedure. 4. OFFICIAL MEASURERS AND WEIGHERS

The straight loaded shipments of consolidator Cargo, stuffed at Carrier's nominated off dock CY locations, does not require measuring/weighing for purposes of confirming volume/weight of cargo. For such shipments, however, there must be a certificate from an officially appointed Sworn Measurer to confirm the exact location at which the shipment was stuffed into the container.

5. MISDESCRIPTION, UNDERWEIGHTS AND UNDERMEASUREMENT

A. The carrier at loading port will assess freight on the shipments on the basis of the gross weights and/or measurements declared or deemed to have been declared by Shippers. Such assessment is subject to the terms and conditions of the carrier's Bill of Lading. Notwithstanding the foregoing. Carrier may arrange at the port/point of destination for the verification of the description, measurement or weights of all such shipments as they, at their sole discretion, may decide and in all such cases the description, measurements or weights so obtained shall be used for determining the correct amount of freight which has to be paid and expense incurred should be for account of cargo.

B. If the gross weights and/or measurements declared by the Shippers are less than those ascertained and if the Shippers, by notification to the Carrier, within seven (7) days of the vessels sailing from port of loading or the consignees, by notification to the Carrier prior to the shipment leaving the custody of the Carrier, maintain that the gross weights and/or measurements stated by them are correct, freight shall be assessed provisionally on the controllers' figures and subsequently adjusted, if necessary, after an outturn reweighing and/or re-measuring. If such outturn reweighting, re-measuring and/or resurveying shows that the gross weights, measurements and/or description were understated and/or misdeclared by the Shippers, re-measuring and/or resurveying shall be for the account of the cargo.

Shipper/Consignee for CY origin shipments shall be jointly severally and absolutely liable for any fine, penalty or other sanction imposed upon carrier, its agent motor/rail carrier by authority for exceeding lawful over-the-weight limitations in connection with any transportation services provided under this tariff and occasioned by any act of commission or omission of the shipper/consignee, its agent or contractors, and without regard to intent, negligence or any other factor. When carrier pays any such fine or penalty and assumes any other cost or burden, arising from such an event, it shall be on behalf of and for benefit of the cargo interest and carrier shall be entitled to full reimbursement therefore upon presentation of an appropriate invoice. Rule 2-090: Diversion of Cargo (By Shipper or Consignee)

Effective: 01DEC2011 Thru: NONE Expires: NONE Publish: 01DEC2011

A request for diversion of a shipment will be considered as an amendment to the contract of carriage and will be subject to the following definitions, conditions and charges:

A. Definition of Diversion:

A change in the original billed destination (which may also include a change in Consignee, order party, or both). A change in Consignee, order party or both will not be considered as diversion of cargo.

B. Conditions:

1. Requests must be received in writing by the carrier prior to the arrival of the vessel at Discharge Port. Carrier will make diligent effort to execute the request but will not be responsible if such service is operationally impractical or cannot be provided.

2. Cargo moving under a non-negotiable Bill of Lading may be diverted at the request of shipper or consignee. Cargo moving under a negotiable Bill of Lading may be diverted by any party surrendering the properly endorsed original Bill of Lading. Cargo moving under a negotiable Bill of Lading may also be diverted by the shipper or consignee at the carrier's sole discretion without receipt by the carrier of the original negotiable Bill of Lading so long as a new negotiable Bill of Lading is not requested or issued by the carrier. If a new negotiable Bill of Lading is requested by the shipper or consignee, the original negotiable Bill of Lading must be surrendered to the carrier prior to issuance of the new negotiable Bill of Lading.

3. This rule will apply to full Bill of Lading quantities or full container loads only.

4. A shipment may only be diverted once. Shipper may request cancellation of the original diversion request, resulting in delivery of the cargo to the original billed destination, provided that such request is received prior to arrival of vessel at Discharge Port, and provided that all diversion charges as set out in C. below, applicable to the original diversion request, are paid in full prior to the cancellation request being accepted by the carrier. In no instance will any refund of the diversion charges be made in the event of a cancellation. Any additional expenses incurred by the carrier will be for the account of the cargo.

5. Cargo, which, upon request of Merchant (stowage permitting), is diverted to a Port of Discharge within the Scope of this Tariff other than that shown in the Bill of Lading, shall be assessed the actual amount of expense incurred by Carrier, or as per carrier tariff at time of shipment, whichever is higher, plus, at the sole discretion of the Carrier, depending on the relevant administrative burdens resulting from the diversion, an administrative fee of up to \$50/BL for cargo received and diversion requested prior to vessel departure, or up to \$300/BL for cargo received and diversion requested post vessel departure, from origin port.

6. Diversion charges or administrative charge are payable by the party requesting the diversion.

1. Single shipments which consist of articles subject to only one class or commodity rate will be charged at the actual or authorized estimated weight and at the class or commodity NRA applicable, subject to the minimum charge in the appropriate minimum charge item in tariffs making reference hereto.

2. Single shipments which consist of articles subject to two or more different NRAs, when articles subject to such different NRAs are separately packaged, will be charged at the actual or authorized estimated weight, and at the class or commodity NRA applicable to each, subject to the minimum charge in the appropriate minimum charge item in tariffs making reference hereto.

3. Where different scales of NRAs are provided for shipments of different weights, apply on each article the NRA which would apply on that article if such article were tendered as a straight shipment weighing the same as the aggregate weight of the mixed shipment. Any deficit between the actual weight of the shipment, and the weight provided for the next lower scale of NRAs, will be charged for at the lowest NRA applicable to any article in the shipment.

4. When two or more commodities for which different ratings are provided, are shipped as a mixed shipment without actual weights being obtainable for the portions shipped under the separate ratings, charges for the entire shipment will be computed at the class or commodity NRA applicable to the highest classed or rated commodity contained in such mixed shipment. The minimum weight shall be the highest provided in any of the NRAs used in computing the charges. In the event a lower charge results by considering such commodities as if they were divided into two or more separate shipments, such lower charge shall apply.

JET-SPEED LOGISTICS (USA) LLC - D/B/A JET-SPEED OCEAN LINE NRA TARIFF NO. 100 - Between (US and World)

 Amendment No.: O
 SUBMISSION OF CARGO DECLARATION DATA

Effective: 01DEC2011 Thru: NONE Expires: NONE Publish: 01DEC2011

A. SUBMISSION OF CARGO DECLARATION DATA; DEADLINE FOR SAME.

Pursuant to Customs regulations effective December 2, 2002, Carrier is required to submit certain cargo declaration data for all cargo on board a vessel that will call in the United States (i.e., U.S. import cargo and foreign destination cargo remaining on board the vessel) to the U.S. Customs Service not later than 24 hours prior to the time the cargo is loaded on Carrier's vessel at each non-U.S. port of loading. In order to enable Carrier to comply with this requirement,

except as provided in paragraph B of this rule, any person tendering cargo to Carrier that is to be transported to the United States or that will be on a vessel when that vessel calls in the United States must provide the following information regarding such cargo to Carrier in writing (including by electronic transmission) in sufficient time for Carrier to transmit the data to the Customs Service at least 24 hours prior to the loading of the cargo on Carrier's vessel. Failure to comply with these requirements will result in cargo not being loaded.

1. A precise description of the cargo (or the 6-digit HTS number under which cargo is classified) and weight of the cargo or, for a sealed container, the shipper's declared description and weight of the cargo. The quantity of cargo shall be expressed in the lowest external packaging unit (e.g., a container containing 10 pallets with 200 cases shall be described as 200 cases). Generic descriptions, including, but not limited to, 'FAK,' 'General Cargo,' 'Chemicals,' 'Foodstuffs,' and terms such as 'Said to Contain' are NOT acceptable descriptions.

2. Shipper's complete name and address, or the identification number issued to the shipper by the U.S. Customs Service upon implementation of the Automated Commercial Environment ('ACE').

3. Complete name and address of the consignee, owner or owner's representative, or its ACE identification number.

4. Internationally recognized hazardous material code when such materials are being shipped.

5. Seal numbers for all seals affixed to the container.

B. TIME FOR SUBMISSION OF DATA BY SHIPPERS TO CARRIER.

Except as otherwise provided below, the time for shipper to submit data to Carrier shall be as follows:

1. Shippers who submit their shipping instructions in paper format will be required to submit their shipping instructions to Carrier no later than seventy-two (72) hours prior to vessel arrival at the foreign port of load. This applies to all U.S. destined cargo as well as cargo intended to be transshipped at a U.S. port and cargo that will remain on the vessel for carriage to a non-U.S. port.

C. CERTAIN NON-VESSEL OPERATING COMMON CARRIERS.

Non-vessel operating common carriers ('NVOCCs') that are licensed by or registered with the FMC and that have obtained Customs bonds may submit the required inbound cargo declaration data directly to the U.S. Customs Service in accordance with Customs Service regulations and guidelines. For purposes of this provision, an NVOCC is registered with the FMC if it has been issued an Organization Number by the FMC, has published a valid and effective rules tariff, and has posted the required financial security with the FMC.

1. Certification. Any NVOCC that submits cargo declaration information directly to the Customs Service shall, unless notified by the Carrier pursuant to subparagraph C(1) above that it is not required to do so, in lieu of the information required to be submitted pursuant to paragraph A of this rule, provide the Carrier, not later than the deadline for shipper submission of cargo information under paragraph B of this rule, with a written certification stating that the required inbound cargo declaration data for its cargo has been transmitted to the U.S. Customs Service in a timely and accurate manner. Such certification shall describe the cargo tendered with sufficient specificity (including container number) that Carrier may readily identify such cargo.

2. NVOCC Co-Loading. For purposes of this paragraph, the term 'Master NVOCC' shall mean the NVOCC that is the customer of the Carrier and tenders co-loaded cargo to the Carrier in its name. In the event the Master NVOCC submits cargo declaration data for co-loaded cargo directly to the Customs Service, it shall do so for all NVOCCs with which it co-loads. In the event the Master NVOCC does not submit cargo declaration data for co-loaded cargo directly to the Customs Service but NVOCCs with which it co-loads transmit cargo declaration data for their cargoes directly to the Customs Service, it shall be the obligation of the Master NVOCC to provide Carrier with the certification described in subparagraph C(1) with respect to all co-loaded cargo tendered to Carrier by the Master NVOCC. 3. All NVOCCs shall be subject to Paragraphs D and E of this rule.

D. FAILURE TO PROVIDE INFORMATION; DENIAL OF PERMISSION TO LOAD CARGO.

1. In the event Carrier fails to provide the required inbound cargo declaration data to the U.S. Customs Service for all cargo to be loaded on its vessel within the time period required by Customs Service regulations it may, among other things, be assessed a civil penalty, denied permission to unload the cargo for which information was not timely provided, and/or denied permission to unload any cargo from the vessel on which the cargo is moving. Accordingly, Carrier may refuse to load any cargo tendered to it for which it has not received either (i) the data required by paragraph A of this rule by the deadline specified pursuant to paragraph B; or (ii) the certification required by paragraph C of this rule by the deadline specified therein.

2. Any and all costs incurred by Carrier with respect to cargo in its possession which is not loaded due to the nonprovision of information or certification, or which is not loaded pursuant to the instructions of the U.S. Customs Service (regardless of whether or not the required data or certification has been provided for such cargo), including but not limited to inspection, storage and/or re-delivery costs, shall be for the account of the cargo. Carrier shall have a lien on cargo in its possession for amounts due hereunder and may hold cargo until such amounts (and any other unpaid freights or charges) are paid or sell such cargo after a reasonable period. In the event Carrier is forced to take legal action to collect amounts due hereunder, Carrier shall be entitled to recover all costs (including reasonable attorneys' fees and expenses) incurred in connection with such legal action.

E. INDEMNIFICATION OF CARRIER.

If Carrier is assessed a civil penalty or fine or is denied permission to unload cargo, because of the failure of any and all shippers, consignees, cargo owners, NVOCCs, shippers' associations and their agent(s) to provide the information required by this rule and/or by the regulations or guidelines of the U.S. Customs Service in a complete and accurate manner, then such shippers, consignees, cargo owners, NVOCCs, shippers' associations and their agent(s)shall be jointly and severally liable to indemnify and reimburse Carrier for any such penalty or fine and any and all costs, damages or liability, direct, indirect, special or consequential, incurred by the Carrier as a result of the denial of permission to unload cargo or any delays related thereto. Carrier shall have a lien on cargo in its possession for amounts due hereunder and may hold cargo until such amounts (and any other unpaid freights or charges) are paid or sell such cargo after a reasonable period. In the event Carrier is forced to take legal action to collect amounts due hereunder, Carrier shall be entitled to recover all costs (including attorneys' fees) incurred in connection with such legal action.

F. CONFIDENTIALITY. Carrier acknowledges that the information required by the Customs Service may constitute confidential information that is not generally available to the public. Carrier, in accordance with the requirements of Section 10(b)(13) of the Shipping Act of 1984, as amended, will keep confidential, to the extent permitted by law, all Shipper bill of lading information, including information related to underlying shippers and commodities in respect of containers of less than container load cargo containing shipments by more than one Shipper.

G. DOCUMENTATION CHARGES. See Rule Nos. 2-150 for charges to apply.

Rule 2-190:FDA PRIOR NOTICE

Effective: 01DEC2011 Thru: NONE Expires: NONE Publish: 01DEC2011

A. Prior Notice and Registration Requirements:

Pursuant to regulations effective December 12, 2003 (see 21 C.F.R. Parts 1 and 20), the FDA must be provided with notice of food that is imported or offered for import into the United States (i.e., the continental U.S., Alaska, Hawaii and Puerto Rico) by water at least eight (8) hours prior to vessel arrival.. The term "food" means: (i) articles used for food or drink for man or other animals; (ii) chewing gum; and (iii) and articles used for components of food or chewing gum (see 21 U.S.C. Sec. 321(f). However, the term does not include meat products, poultry products, and eggs products that are subject to the exclusive jurisdiction of the U.S. Department of Agriculture. In addition to prior notice of food shipments, the new FDA regulations require that U.S. and foreign facilities which are engaged in the manufacturing, processing, packing, or holding of food for consumption in the United States ("subject facilities") register with the FDA.

B. Responsibility for Prior Notice and Registration:

It shall be the responsibility of the shipper and/or consignee named in Carrier's bill of lading (hereinafter collectively referred to as the "Cargo Interests"), to ensure that prior notice of any shipment of food (as that term is defined in Paragraph A) imported or offered for import into the U.S. is provided to the FDA in accordance with applicable regulations and that any subject facility (other than a subject facility of Carrier) which has manufactured, processed, packed or held such food shipment has registered with the FDA in accordance with applicable regulations.

C. Evidence of Compliance:

With respect to any food shipment for which a prior notice confirmation number ("PN Number") is required to be provided to the Bureau of Customs and Border Protection ("CBP"), FDA, or any other government agency upon arrival, it shall be the responsibility of Cargo Interests to ensure that such PN Number has been provided to the required agencies and other persons prior to vessel arrival. In addition, Cargo Interests shall be required to provide Carrier with the PN Number immediately upon written request of Carrier.

D. Failure to Comply:

1. In the event that any food shipment is delayed or refused entry into the United States due to the failure to provide adequate prior notice or the failure of a subject facility to register with the FDA, it is expected that notice of refusal will be provided to Carrier by the FDA and/or CBP.
